

FamilyMeans

YOUTH DEVELOPMENT

FamilyMeans helps provide summer programming and supervision to youth in the low-income communities of Landfall and Cimarron. These programs help give these youth experiences and educational opportunities that they may not get otherwise.

FamilyMeans is looking for volunteers to help assist our staff in providing a safe and educational environment for youth to grow. Assisting our staff includes helping supervise youth participants, helping staff set up and run activities and helping with other tasks.

We are currently looking for volunteers who would be willing to help at our Landfall Investigation Station. Which for youth, K-5th grade. The programming is 11 through 2:30 Monday-Friday but does not include Wednesdays. Volunteers do not need to commit to every day for the whole time, but we do ask for a consistent schedule if possible.

If you are interested or have questions, please contact Dan at dbohnker@familymeans.org.
