

FamilyMeans
CAREGIVING & AGING

Safe at Home

Join us for a free webinar to learn what areas of the home can be modified to help you live safely, wherever it is that you call home.

FamilyMeans welcomes guest speaker, Jessica Engman from Evolvewell to discuss the important topic of home safety.

All living environments have areas of risk. Attendees can expect to learn practical ideas for reducing risks around the home, hear about the highest home safety risks facing aging adults, and to know the community resources to have your living space assessed by an Aging in Place specialist.

JOIN US VIRTUALLY!

**Tuesday, May 11th, 2021
2:00 pm to 3:30 pm**
